Proposal pricing should be included in the Pricing Attachment and be submitted in xls or xlsx format.

Proposed service fees for each piece of equipment should:

- be shown as unit pricing with separate line item charges for each SKU,
- identify the percentage of each SKU that is eligible for E-Rate support as agreed upon by USAC and the manufacturer; and
- be categorized as Internal Connections (IC), Basic Maintenance of Internal Connections (BMIC), and/or Managed Internal Broadband Services (MIBS).

## **Equipment/Service Request**

The applicant requests proposals for new E-Rate eligible Category Two equipment. Proposals featuring equipment that is used, open box, refurbished, or categorized in any way other than new will be disqualified.

For this solicitation, vendor installation services are:  Required  Optional  Not Requested

Proposals are requested for the makes/models specified in the Pricing Attachment (or equivalent). Offers containing alternative makes/models are required to submit product specifications and documentation to establish that the equipment is equivalent to the requested solution. The applicant will be the arbiter of whether the proposed solution is functionally and technically equivalent to the requested solution.

The quantities requested are the applicant’s best estimate and may be adjusted based on the offeror’s recommendations. The applicant reserves the right to increase or reduce quantities and buy some, all, or none of the listed equipment.

Partial bids **will not** be considered.

The applicant prefers a multi-year agreement (term dates April 1, 2025 – September 30, 2027). An initial award term of April 1, 2025 – September 30, 2026, with one optional renewal to align with an extended E-Rate service delivery deadline, if needed, is also acceptable.

The quoted pricing must not assume the applicant will purchase the full quantities listed in the proposal.

The applicant reserves the right to place orders as needed and is not obligated to order all products or services.

Substitutions for alternative equipment must be agreed upon in writing by both parties before finalization of any changes/deviations from the original agreed-upon equipment list.

Offerors proposing equipment whose prices may increase depending upon new U.S. government tariffs imposed on imports are encouraged to (a) identify such products in their offers, and (b) propose an acceptable methodology for limiting price adjustments over the contract term.

## **E-Rate Specific Considerations/Information**

FCC rules require vendors to offer discounted SPI billing. The applicant **requires** SPI discount method for these services. Vendors that do not offer SPI billing will be disqualified.

Licensing for new equipment may have Basic Maintenance of Internal Connections or Managed Internal Broadband Services components, which is why BMIC & MIBS have been selected on the Form 470. This solicitation is not requesting BMIC or MIBS beyond any related manufacturer licenses and/or extended service subscriptions for the equipment requested.

Per USAC E-Rate rules, "cost of eligible services" will be the highest valued criterion in the evaluation process; however, other criteria with a lesser value may also be considered.

Service providers proposing to temporarily loan equipment for product demonstration and/or evaluation purposes are **required** to clearly state that such loans are of limited duration. Product demos extending beyond thirty (30) days must be explicitly authorized by both parties and provided at a fair market rate.

By submitting a proposal on the requested services herein, the vendor certifies its proposed services and/or products comply with Part 47 Section 54.9 and 54.10 of the FCC rules which prohibits the sale, provision, maintenance, modification, or other support of equipment or services provided or manufactured by Huawei, ZTE, or any other covered company posing a national security threat to the integrity of communications networks or the communications supply chain. See <https://www.usac.org/about/reports-orders/supply-chain/> for more details.

As required by Section 54.500(f) of Part 47 of the Code of Federal Regulation all bids in response to this RFP **must** offer the lowest corresponding price (LCP) which is defined as the lowest price that a service provider charges to nonresidential customers who are similarly situated to a particular E-Rate applicant (school, library, or consortium) for similar services. See <https://www.usac.org/E-Rate/service-providers/step-2-responding-to-bids/lowest-corresponding-price/> for more details.

## **Additional Considerations/Information**

Applicant is subject to District of Columbia restrictions.

The language in this solicitation has been standardized: "must," "shall," "mandatory," and "required" indicate mandatory specifications that the Applicant expects in the proposed solution. Proposals failing to meet these will be disqualified. "Should" and "may" indicate desirable specifications. A mandatory requirement may be waived if all respondents fail to meet a mandatory requirement.

The Applicant reserves the right to request Best and Final Offers (BAFOs). BAFOs must be received by the date/time provided during discussions/negotiations, or the originally submitted proposal will be used for further evaluation and award recommendation.

Applicant reserves the right to waive any irregularities or informalities in the proposals received.

Applicant reserves the right to award all, part or none of the services set forth in this procurement. This procurement does not obligate Applicant until a valid agreement and/or valid Purchase Order is executed.

Applicant may, at its sole discretion, extend the due date for the submission of proposals and any extensions shall be done via an addendum posted in the E-Rate Productivity Center (EPC.)

The vendor submission is subject to open records requests and, as such, the records will be released in accordance with those policies. Vendors are encouraged to mark pages as "Proprietary" or "Confidential" as appropriate, but the entire submission may not be marked as such. Identifying information as "Proprietary" or "Confidential" does not guarantee that the information will not be released but will be considered in determining whether the information is required to be released in accordance with the open records policies. Generally, pricing is not exempt from being publicly released.

By submitting a proposal, the Offeror certifies that no relationship exists between the Offeror and Applicant that would interfere with fair and open competition or create a conflict of interest.
